Executive Register

74-4706

MEMORANDUM FOR: Director of Central Intelligence Agency
THROUGH : Deputy Director for Science and Technology
SUBJECT : Purchase of ADP Equipment

1. The purpose of this memorandum is to request approval to purchase selected items of data processing equipment which NPIC has on lease from [REDACTED]. The specific request is in paragraph 8.

2. The cost figures quoted within this memorandum are based on conversion from lease to purchase status with an effective date of 1 July 1974.

3. Although the effective date of this transaction is subject to negotiation between the Agency's Procurement office and [REDACTED] we must consider the fact that for each month after 1 July 1974 that this transaction is delayed, the savings to the government will be reduced by approximately [REDACTED].

4. It is, therefore, advantageous to the government to act on this proposal as soon as possible to avoid additional rental payments.

5. The equipment (Storage and Communications devices and input/output terminals) listed in Attachment 1 is currently being leased at an annual expenditure of [REDACTED]. The purchase cost as of 1 July 1974 is [REDACTED] or slightly less than the lease cost.

6. According to our projected utilization of this equipment over the next three years and depending on the effective date of this transaction, the government will save nearly [REDACTED]. The maintenance cost remains the same whether leased or purchased.

7. These savings are now possible because NPIC can apply accrued rental credit options of [REDACTED] towards the purchase of this equipment which has a current purchase value of [REDACTED]. Further, these accrued rental credit options apply only to the listed [REDACTED] lease equipment, therefore, it is our justification for going to sole source procurement on this equipment.
